North Tri-Central Classified Yellow Pages

Publisher's Notice

All advertisements for the sale, rental, financing, appraisal, and insurance of residential properties is subject to the Fair Housing Act, which generally makes it unlawful to make or publish any advertisement that indicates any preference, limitation, or discrimination based on race, color, religion, sex, national origin, handicap or family status.

Northern Directory Publishing will not knowingly accept any advertising for the sale, rental, financing, appraisal or insurance of residential properties that include any unlawful preference, limitation or discrimination.

Northern Directory Publishing has taken great pride in preparing this directory. Every precaution has been taken to provide correct directory listings. However, we cannot guarantee or accept responsibility for the accuracy of information furnished to us, the absence of listings, any errors, omissions or unintentional inclusions.

To request to be removed from the North Tri-Central Community Directory distribution please call Northern Directory Publishing at 800-761-5234 or online at www.yellowpagesoptout.com.

CALL NOW AND GET:

FREE STANDARD PROFESSIONAL INSTALLATION

Up to 6 rooms. Available in most areas.

FREE PREMIUM CHANNELS for 3 months.

Offer value \$180; Subject to credit qualification. After 3 mos., you will be billed \$60/mo. for HBO, Cinemax, Showtime, Starz and DISH Movie Pack unless you call to cancel.

FIRE ESCAPE PLANNING

- **HOW MUCH TIME DO YOU HAVE TO GET OUT OF A FIRE?**
Not as much as you think. Real fires are hot, smokey and dark. You may have only a very few minutes to safely escape from fire. If you're ever in a fire, don't spend time getting dressed or trying to gather valuables. Just get out and stay out. Then call the fire department from a neighbor's telephone.
- **IF YOU HAVE A FIRE TONIGHT, WILL YOU GET OUT SAFELY?**
You'll have a better chance of getting out safely if you've planned ahead. Develop a fire escape plan and practice it with the whole family. Everyone should know two ways out of each room and know where to meet outside. Make sure everyone understands that getting out is the first priority. And remember, once you're outside, stay out.
- **"GET OUT, STAY OUT" - YOUR FIRE SAFE RESPONSE**
What would you do if your home caught on fire? Would you know where to go if smoke or flames blocked your escape? There is no time to think about these questions in a real fire. It's hot, smokey, and so dark you may not be able to see your own hands. Know ahead of time what to do if there's a fire. Develop an escape plan with two ways out of every room. You'll need a second way in case your primary exit is blocked by smoke or flames. And make sure every exit is accessible, including windows. Getting out is your first priority in a fire. And once out, stay out!

Social Security
SNAPSHOT...

Your Social Security number

The benefits you receive from Social Security are based on the earnings your employer (or you, if you are self-employed) reported using your Social Security number. So it is important that you always use the correct Social Security number. Also, you should make sure the name you use at work is the same as the name shown on your Social Security card. If you ever change your name, you should change your name on your Social Security card, too. Social Security does not charge for this service. You should get a Social Security number for your children as soon as they are born. You will need their numbers to claim them as dependents on your federal income tax return.

Identity theft

Be careful with your Social Security card and number to prevent identity theft. Show your card to your employer when you start a job so your records are correct. Then, put it in a safe place. **DO NOT** carry your card with you.

SMOKE ALARMS

• TEST YOUR ALARM FOR LIFE!

Your smoke alarm has the power to save your life. Or does it? That's a risk you can't afford to take. Working smoke alarms give us early warning of a fire, providing extra time to escape safely. But they can't do their job if we haven't done ours - monthly testing to make sure they're working. Test all the smoke alarms in your home. For the life of the alarm and for the lives of your loved ones.

• WHEN WAS THE LAST TIME YOU TESTED YOUR SMOKE ALARMS?

Last month? Last year? Can't remember? If you're not sure your smoke alarms are working, then how can you be sure you'll be protected if a fire breaks out? Don't gamble with your life and assume your smoke alarms are working. Test each one, every month, so you'll know they'll be ready to protect you and your family if there's a fire. Test your alarm for life.

• DO YOU HAVE THE TIME?

Can you afford to spend a few minutes each month to test the smoke alarms in your home? Can you afford not to? Going without the protection of a working smoke alarm is a risk too dangerous to take. In a fire, you'll need every second to get out safely, and the early warning from a smoke alarm can make the difference between surviving a fire and dying in one. Test your smoke alarms today. You can't afford not to.

Chinook

With small town charm & big city ambiance, Chinook is where people go to relax, hunt, fish & enjoy true scenic Montana country.

The Chinook area features some of the best big game and upland game bird hunting in Montana, as well as numerous exciting events throughout the year.

For historical and cultural activities, visit the famous Bear Paw Battlefield, Nez Percé National Historical Park, Blaine County Museum and the Wildlife Museum!

I see more than a bundle.

While other insurers just see your home and car as a bundle or a combo deal, I take the time to see what they mean to you and give them the protection they deserve.

LET'S TALK TODAY.

Anthony Cammon FSS LTCP, Agent
115 4th Avenue West
Havre, MT 59501

Auto Insurance Program from

*Savings may vary. The AARP Automobile Insurance Program from The Hartford is underwritten by Hartford Fire Insurance Company and its affiliates, One Hartford Plaza, Hartford, CT 06155. The Hartford pays royalty fees to AARP for the use of its intellectual property. These fees are used for the general purposes of AARP. AARP membership is required for Program eligibility in most states. Features, credits and discounts may vary and may not be available in all states in accordance with state filings and applicable law. Applicants are individually underwritten and some may not qualify.

 **Social Security**
SNAPSHOT...

Paying Social Security taxes

If you work for someone else, your employer withholds Social Security and Medicare taxes from your paycheck and sends those taxes to the Internal Revenue Service (IRS). Your employer also sends the IRS a matching amount equal to what was withheld from your paycheck. All of your earnings are reported to Social Security by your employer.

If you are self-employed, you pay all your Social Security and Medicare taxes when you file your tax return and the IRS reports your earnings to Social Security. You pay a rate equal to the combined employee/employer share, but there are special income tax deductions you can take that offset your taxes.

The Social Security and Medicare taxes you pay are not put in a special account for you. They are used to pay benefits for people getting benefits today, just as your future benefits will be paid for by future workers.

Social Security

SNAPSHOT...

Social Security benefits

Your Social Security taxes pay for three kinds of benefits: retirement, disability and survivors.

If you are eligible for retirement or disability benefits, other members of your family might receive benefits, too. These include: your spouse if he or she is at least 62 years old or under 62 but caring for a child under age 16 or 16 and older but disabled and entitled to benefits on your record; and your children if they are unmarried and are under age 18, age 18 – 19 and attending elementary or high school full-time or 18 or older but disabled. If you are divorced, your ex-spouse could be eligible for benefits on your record.

Be Ready! Wildfires

Windows/Vents
Close all windows, doors, vents, blinds before evacuating.

Smoke Detector
Install a dual-sensor smoke alarm on each level of your home. Test monthly and change the batteries at least once each year.

Flame/Smoke
Smoke from wildfires is a mixture of gases and fine particles. Smoke can hurt your eyes, irritate your respiratory system, and worsen chronic heart and lung diseases.
Listen and watch for air quality reports and health warnings about smoke. You can suffer from smoke even if you are not in the direct path of the wildfire.

Radio
Stay tuned to local radio or television station for information and instructions from local officials.
IF ADVISED TO EVACUATE DO SO IMMEDIATELY

Additional Tips
Firewood Stack firewood away from house.
Vegetation Clean gutters, rake leaves, and remove dead limbs from around your home.
Water If there is the threat of a wildfire, you can use your hose or sprinkler to wet your roof and shrubs around your home.

Escape Route
Have several planned escape routes away from your home—by car or foot.

Go-Kit
Have a disaster supply kit ready to take with you.

What is life? It is the flash of a firefly in the night.
It is the breath of a buffalo in the wintertime.
It is the little shadow which runs across the grass and loses itself in the sunset. ~ Crowfoot
