Yogo Sapphires, found only in Montana, are considered to be among the finest sapphires in the world. Their "cornflower blue" color gives them one of the most natural true-blue colors.

I'm sick of following  
my dreams, man.  
I'm just going  
to ask where  
they're going  
and hook up  
with 'em later.

In Kentucky, the number of bourbon barrels outnumbers the state's population by more than two million. That's a lot of bourbon. Kentucky is the birthplace of the drink and crafts 95 percent of the world's bourbon supply.

The president Lincoln, who was assassinated on April 14, 1865, had signed legislation to create the U.S. Secret Service hours before he headed to Ford's Theatre.

However, the Secret Service wouldn't have saved Lincoln had it been created in time - the original purpose was to combat widespread currency counterfeiting.

It wasn't until 1901 that its M.O. was to protect the president.

The Yellowstone River is the longest free-flowing (undammed) river in the contiguous United States. The longest river in the U.S. by miles, the Missouri River, begins in Montana at the "Three Forks" - the intersection of the Gallatin, Madison and Jefferson Rivers. Flathead Lake is the largest fresh water lake west of the Mississippi River.

Flamin' Hot Cheetos were developed by a janitor at Frito-Lay, Richard Montanez, who got the idea after putting chili powder on some reject Cheetos and then pitched it to the CEO. He's now a successful executive and motivational speaker, and a movie is in the works about his life.

### An inviting hotel off U.S. Highway 2

AmericInn by Wyndham of Havre is located just off U.S. Highway 2, which runs cross-country, making us a convenient stop for road trippers. Situated among the breathtaking mountains and plains of North Central Montana, our hotel puts you in close proximity to the Bear Paw Ski Bowl, Montana Dinosaur Trail, and unique historical attractions such as Havre Beneath the Streets. Known for its fantastic fishing, hunting and nature walks, Havre is the perfect year-round destination for nature lovers and outdoor enthusiasts.

There he stands,  
draped in more  
equipment than a  
telephone lineman,  
trying to outwit  
an organism with  
a brain no bigger  
than a breadcrumb,  
and getting licked  
in the process.

Montana offers almost 28 million acres of public lands, almost 30 percent of the state's total acreage.

Abraham Lincoln is in the Wrestling Hall of Fame. Defeated only once in approximately 300 matches, Lincoln reportedly talked a little smack in the ring. According to Carl Sandburg's biography of Lincoln, Honest Abe once challenged an entire crowd of onlookers after dispatching an opponent: "I'm the big buck of this lick. If any of you want to try it, come on and whet your horns." There were no takers.

Alaska is the largest state in the United States, and was sold for a total of \$7.2 million, which amounts to about 2 cents per acre. The state was purchased from Russia in 1867. In the 50 years that followed, America made their money back for the \$7.2 million more than 100 times over.

During prohibition, when people continued to consume alcohol despite its banning, law officials got frustrated and decided to try a different kind of deterrent: death. They ordered the poisoning of industrial alcohols manufactured in the U.S., which were products regularly stolen by bootleggers. By the end of Prohibition in 1933, the federal poisoning program is estimated to have killed at least 10,000 people.

 on Montana –  
 You might live  
 in Montana if....**

- If parking your car for the night involves an extension cord,
- If you have ever refused to buy something because it's "too spendy",
- If your local Dairy Queen is closed from November through March,
- If you have worn shorts and a parka at the same time,
- If your town has an equal number of bars and churches,
- If you know how to correctly pronounce Absarokee, Choteau, Ekalaka, and Hysham,
- If you can drive 65 mph through 2 feet of snow during a raging blizzard, without flinching,
- If you see people wearing hunting clothes at social events,
- If the largest traffic jam in your town centers around a high school basketball game,
- If there are 7 empty cars running in the parking lot at Wal-Mart at any given time,
- If there are more people at work on Christmas Eve Day than on Opening Day of Deer Season,
- If you design your kid's Halloween costume to fit over a snowsuit,
- If driving is better in the winter because the potholes are filled with snow,
- If you know all 4 seasons: almost winter, winter, still winter and road construction,
- If you find 0 degrees "a little warm,"

Montana's largest county by population is Yellowstone County, home to almost 159,000 people according to 2017 estimates. That's 35 percent more people than the next most-populated county (Missoula), and 300 percent more than the least-populated county (Petroleum). Approximately 1 in 7 Montanans live in Yellowstone County.

Penguins used to be giant beasts!  
 Scientists have discovered a fossil  
 that shows their ancestors were  
 200-pound, 5' 7" beasts with  
 long, spearlike beaks.  
 That's right: Monster penguins!

The American Dream is still alive out there, and hard work will get you there.  
 You don't necessarily need to have an Ivy League education or to have millions  
 of dollars startup money. It can be done with an idea, hard work and determination.
