# CEO MESSAGE

Craig Gates  
General Manager/CEO

Summer is here and the weather is getting warmer and here at Triangle Communications we have already started our Fiber to the Home projects for 2023. The exchanges upgrading to fiber this year are South Chester, Geraldine and additional projects around Big Timber. Triangle has hired contractors to plow the fiber and work on other aspects of these construction projects. The contractors working for Triangle are required to have

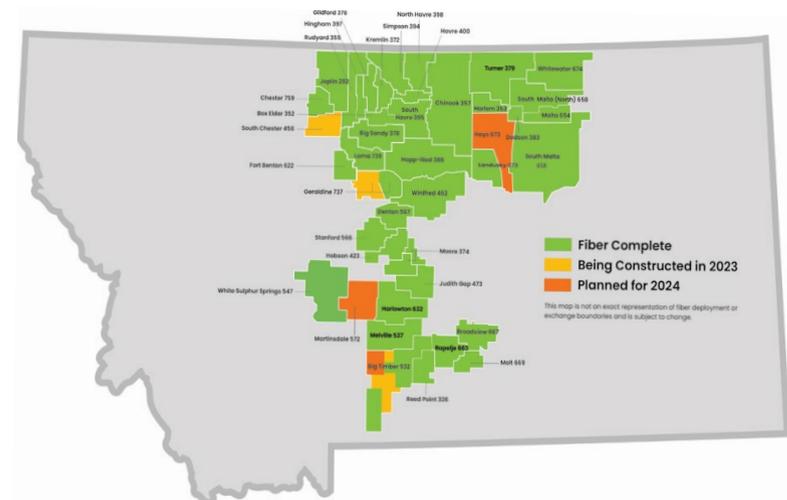

their company name and/or Triangle magnets on their vehicles. All the contractors are required to have ID badges with their photo, name, and name of the contractor they work for.

Triangle did pre-installs in the exchanges being upgraded to fiber. Once the techs install the fiber and connect it to the pre-installed equipment, your fiber service should be up and running. The pre-installs will make the connection of the fiber plowed into the locations easier and faster.

The number of devices in any given home continues to grow and the need for increased internet speeds will continue to rise. We understand access to fast internet is important for all our members whether you are working from home, doing online schooling, gaming or just keeping up with the family and your community. Fiber technology allows us to provide faster speeds to support all your internet needs.

Triangle is already preparing for our 2024 projects in Hays/Lodgepole, Springdale and Martinsdale. Our Engineering team will be contacting members to obtain right-of-way easements for the fiber placement in these areas soon. You will also see our engineering crews staking the routes soon for the fiber being plowed next year.

Thank you to our members for your patience and understanding as we continue our fiber upgrades. Stay Safe and Stay Healthy!

# COMMUNITY FEATURE: BIG TIMBER

Big Timber is a must-stop along the i90 Route. The beautiful Crazy Mountains make for a perfect backdrop for a stop in the quaint little town of Big Timber. You can surely eat well in Big Timber, from a slice of pie, a hot cup of Tumblewood Tea, out-of-this-world burgers, and a soup and salad bar to die for.

Café Coffey's, the newest restaurant in town, offers daily breakfast and lunch from 6 am to 2 pm. Located in the old Frosty Freeze building, stop by the beloved 50's diner for a regular, old-fashioned breakfast or lunch.

The Coffee Stop is the perfect place to begin your day with a hot coffee and a freshly baked pastry. Swing through the drive-thru or stroll in and have a seat. The Coffee Stop offers fresh baked pastries, donuts, and breakfast bagel sandwiches. You'll be sure to get through your day with some of the best espresso in the State!

Earthwise General Store opened in 2020 and is a sustainable, green, locally focused store. They offer a variety of local, Montana-made products and fresh food options. Stop by for a Wildberry Smoothie, soft serve ice cream cone, or a freshly made deli sandwich such as the Crazy Mountain Grilled Cheese, Windy Italian, or Beef Timber Rancher.

Crazy Peak Boutique is a western themed boutique featuring gifts and apparel, as well as breakfast and

lunch options! Voted Business of the Year, I can surely understand why. With daily specials and a soup and salad bar to die for, they surely deserve this nomination. Be sure to check out their back patio and The Back 40 for dinner options.

Be sure to stop by Thistle Creek while strolling through town to relax in their magical outdoor courtyard and enjoy a warm cup of coffee from Yellowstone Coffee or a cup of tea from Tumblewood Teas and a slice of warm, delicious pie from Montana Pie Company. Feel free to grab a to-go meal from any restaurant in Big Timber and stop in the Courtyard as well!

Take a stroll into the laid-back 1930s atmosphere of Cole Drug. Established in 1935, they feature an old-fashioned soda fountain where you can sit back while waiting for your prescription or stroll in for a leisurely milkshake or Root Beer Float. They also have pancakes, cinnamon rolls for breakfast, and sandwiches such as Reubens, Club, and BLTs for lunch.

Circle T Taproom is a family-owned taproom where the entire family is welcome. Play a game of cornhole or draw with sidewalk chalk on the patio with the kids. Not only do they feature 12 beers brewed next door at Crazy Peak Brewing, but they also have small bites such as pizzas, chips & salsa, tater kegs, wings, and Pioneer Meats snack sticks. Be sure to check out their Facebook for events and food trucks!

Families and friends gather at the Thirsty Turtle to have some of Montana's best burgers, sandwiches, and BBQs. Make sure to attempt the Gut Buster Challenge – eat 2lbs. of burger, one lb. of bacon, and 1lb. of fries, grilled cheese buns, and all the fixings in 30 minutes, and you can walk off with a free meal, t-shirt and your picture featured on Facebook. Fail, and you'll pay the damage of \$50.

The Timber Bar is a family-friendly bar and grill established in 1957 and known for its outstanding steaks, burgers, and chicken. Stop in for a quick game of pool and the well-known Herder Burger made with lamb and tzatziki sauce, with the option of adding bleu cheese crumbles and jalapenos.

Established in 2012, Iron Star Pizza offers dine-in or take-out, serving appetizers, salads, subs, and pizzas. With fresh, quality ingredients, homemade sauces, and scratch-made dough, Iron Star has some of the best pizzas around. Plus, with an outdoor patio, they are the perfect choice for a night under the lights of the outdoor pergola.

The Grand was built in the 1890s and has some of the finest cuisines in Montana. The Grand serves locally raised beef and lamb and has fresh seafood flown in. Enjoy a night out in either the formal dining room or, for a more casual dining experience, the totally restored 1890s Saloon and enjoy Prime Rib on both Friday and Saturday nights!

# INTERNET TIPS AND POWER SUPPLY INFORMATION

## POWER CYCLE YOUR ROUTER

If you are having trouble with your internet, before calling in, you can try power cycling your router. To do so, disconnect the power cable from the back of the router, leave it unplugged for 30 seconds and then plug it back in.

Give your router about 5 minutes to reboot, once all the lights are back on the router, try your internet again. Sometimes this may resolve your issue. If not, please give us a call at 1-800-332-1201.

## GENERAL INTERNET TROUBLESHOOTING TIPS

If you are experiencing issues with your phone/internet, here are some things to try to resolve most issues:

- Disconnect the power from the router and wait 30 seconds before reconnecting.
- Make sure the phone line from the router is firmly plugged into the jack and router.
- If on copper, make sure that there is a filter on all devices plugged into phone jacks including: phones, answering machines, fax machines, satellites, etc. except modem/router.
- If on copper and using a splitter/filter be sure that cord from router is plugged into the DSL side of the splitter.
- If on copper, try bypassing the splitter and plugging the line from the router directly into the phone jack.

- If on fiber optics or using a separate modem, try bypassing the router and plugging the computer directly into the ethernet cable coming from the wall.
- For wireless information including SSID (Wireless connection name) and security key or passphrase look at the bottom, side, or back of the router, (depending on the model). There is usually a sticker that contains that information as well as the public IP, the router's IP and log in information.
- Be sure to have the PC connected directly to the router/modem with an ethernet cable and disconnect all other devices before running the test.
- Do Not Press the Reset Button on the back of the router. (Paperclip in reset hole). If you have pressed the reset button on the router, contact tech support to help reprogram the router.

## UNDERSTANDING THE LIGHTS ON YOUR CYBER POWER BATTERY BACKUP

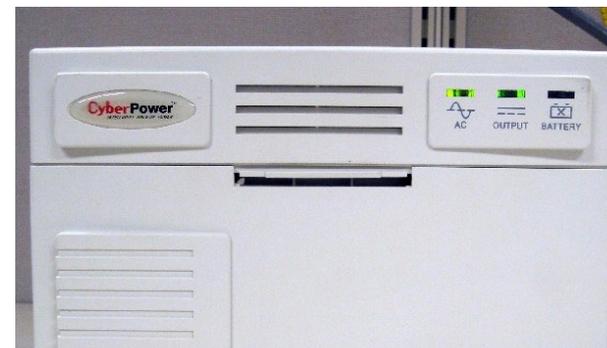

If you are in a fiber location, you will have a cyber power box inside your house. If your phone/internet are out, this is one of the first things that should be checked. It is a white colored box, usually mounted on your wall, and plugged into a power outlet. Check and make sure it is plugged into a working power outlet.

Depending on the model of cyber power you have, it will display different lights on it. On either model,

if the light is not lit up or is a different color, or the battery light is red, check and make sure the power supply is plugged in to a working outlet that has power for sure.

If it is working properly and getting good power from a working outlet, the System Status (far right) light should be lit up green and the others should be off.

If it is working properly and getting good power from a working outlet, the AC and Output lights should both be lit up green, and the others should be off.

# WHO'S WHO: JASON CASTILLON

Jason has been with Triangle Communications for 10 years. In his time at Triangle, Jason has been a Rights-of-Way Agent, Wireless Project Manager, Right-of-Way Supervisor and is currently the Outside Plant Engineering Manager. His main responsibilities are to make sure his team has the training, equipment and guidance to be successful. His team is responsible for engineering, permitting, obtaining right-of-way, mapping/plant records and helping to complete filings required by State and Federal agencies. To put it in perspective, Jason's team works on projects from 100 feet to 300+ miles.

Being a part of a great team and supporting Triangle members and our fellow employees is one of the best things about Jason's job. Watching his team as well as the company succeed is very rewarding to Jason.

Jason and his family enjoy spending time with family and friends whether it be camping, hiking, being outdoors during the summer, and in the hockey rink watching their oldest daughter in the winter. He also coaches youth soccer, tee-ball, hockey and has an Adopt-a-Highway in the Bears Paw Mountains south of Havre.

Jason says his signature dish would be his taco salad, he enjoys cooking many dishes, but the taco salad is a family recipe that he is sharing with his kids to keep the family tradition going. His guilty pleasure is popcorn with

butter and salt and he told me the best way to make it is with an air popper, but kettle popped is good as well.
